

OCCUPATIONAL SAFETY AND HEALTH TRAINING FOR FOREIGN WORKERS IN DENMARK

Mandatory HS training

- We provide the mandatory health and safety training in different languages.
- Contact: Arbejdsmiljøgruppen
Griffenfeldsgade 8, DK-2200 Copenhagen
n. Tel. 26333665.
- Email: info@arbejdsmiljoegruppen.dk
- Web: www.arbejdsmiljoegruppen.dk

We organise both open courses and courses on the enterprises in different languages with the use of professional interpreters. The training courses lasts three days and is on a total of 22 hours.

Our courses meet people where they are, and we take as our starting point the working situations they know.

Our courses give participants insight into accident prevention, risk assessment, knowledge of the HS legislation and ideas to what the individual can do to improve the working environment for himself and his colleagues.

The majority of our foreign trainees are employed in the building and construction industry. Therefore we will cover this industry's specific health and safety rules on our courses.

The course concludes with an approved Health and safety course certificate

Meet Mikael Sylvestersen Trainer

Chief Engineer and former teacher
at the technical school. Former
Labour inspector in the Labour
Inspectorate.

Mikael teaches together with a professional interpreter.

Help within other areas, e.g. contact to other authorities

In addition to working environment undertakings, we also can help you in other matters to the extent that we have knowledge thereof. Often we will refer to relevant external guidance e.g. from the actual authority or, if necessary, from other advisers.

E.g., guidance and advice on

- auditor assistance to accounting and auditing
- translation
- workers' compensation insurance and other insurances
- fines from the Danish police
- lawyer assistance
- setting up a business in Denmark
- establishing of a Danish Web page for your company

Call: 26333665

if you have foreign employees who need a occupational health and safety course we will find a solution that can fit into your planning.

We would also like to arrange a course in your company.

An injunction from the Danish WEA or a piece of good advice?

- Have you got an injunction from the working environment authority (WEA) – or do you just need a good advice on Occupational Safety and Health (OSH)?
- You can always **call us or visit us** in order to ask for advice – we also can come to you to give **advice on location**.
- We have great experience in providing working environment advice to both Danish and foreign companies.

An injunction from the WEA?

5A can also help with:

- **Discharge - help to the right solution - of an injunction.** Including injunctions which require authorized health and safety advice
- Your **contact to the WEA** – e.g., what do you do if the deadline of an injunction has been exceeded?
- **Feedback to the WEA** about how injunctions are complied with
- Guidance on the **interpretation of the Danish health and safety rules**
- Guidelines on which **safety and health solutions** are acceptable to the **working environment authority** and which they do not agree to

Injunctions and contact to the WEA

Do you want help to comply with the Danish health and safety rules?

- Together with you, we can – in a matter of hours – implement a small but effective concept that will help you **ensure your working environment and maintain safety and health work** in your company. The system includes:
- your internal **agreements** on occupational safety and health work and a very **simple health and safety policy** which is easy to remember
- **checklist for instruction of new employees**
- **checklists for ensuring** of the working environment, e.g. before work on a construction site begins
- **training in the use of the system** to prevent OSH problems – including the importance of a good planning
- a very simple and easy to use **system to establish and maintain a Work place assessment (APV)**

Helping You to Help Yourself?

5A offers advice within all OSH areas including building/construction, agriculture, horticulture, transport, cleaning and restaurants, etc. e.g

- Help when you've got an injunction or is going to have a visit from the WEA
- Health and safety solutions
- Occupational safety and health review
- **Work place assessment** and occupational safety and health organization
- Builder advice

What 5A advice on

5A is authorized occupational safety and health advisor within all disciplines

- The ergonomic area (e.g. heavy lifting, impulsion, posture)
- The biological area (e.g. mold, sewage area, etc.)
- The chemical area (e.g. use of chemical products, asbestos, PCBS, lead)
- The physical area (e.g. accident prevention, noise and vibration, protective equipment)
- The psychosocial area (e.g., traumatic events, the difficult conversation)
- Measurements (e.g., screening for asbestos and PCB)

What 5A advice on

Help within other areas, e.g. contact to other authorities

- In addition to working environment undertakings, we also can help you in other matters to the extent that we have knowledge thereof. Often we will refer to relevant external guidance e.g. from the actual authority or, if necessary, from other advisers.
- E.g., guidance and advice on
- auditor assistance to accounting and auditing
- translation
- workers' compensation insurance and other insurances
- fines from the Danish police
- lawyer assistance
- setting up a business in Denmark
- establishing of a Danish Web page for your company

Guidance from other authorities or advisers

Why choose a certified occupational health and safety Advisor?

- In order to be able to advice on the work environment in situations where the WEA dictates, that a company is obliged to have health and safety advice, the Advisor must be authorized by the Danish **Working Environment Authority**.
- Authorization ensures that the Adviser is able to give good and qualified health and safety advice. An advice that helps the company to prevent future occupational safety and health problems.
- The advice shall, inter alia, comply with the requirements stated in "Executive Order on Approval of Consulting Companies on Occupational Safety and Health", including Chapter 4, sections 11 and 12 on the establishment of quality procedures which, among other things, ensure that **the qualifications of the personnel is continuously maintained**.

certified occupational health and safety Advisor?

Safety, health, credibility and professionalism

- 5A´s mission is to contribute to a **safe, healthy and stimulating work environment** by offering relevant, qualified and effective advice.
- We would like to meet businesses where they are, and are committed to emerge as a **credible, appreciative and academically qualified** occupational health advisor
- We have very good knowledge of health and safety rules, practices, improving working conditions and the WEA's supervision because **all** our specialized consultants previously have **worked many years within the Danish Working Environment Authority**.
- Our consultants are qualified **occupational safety and health coordinators (arbejdsmiljøkoordinatorer)** within the **construction area**
